

Our Advantage

Integrity | Service | Results

The three pillars of INTEGRITY | SERVICE | RESULTS are the foundation on which MSP Group was born and the philosophy that every member of our team is committed to. MSP Group's success is obviously not due to our size, but rather an unwavering commitment to our mantra that "the Client's agenda is the ONLY agenda."

MSP Group founders, Deme Mekras and Elliot Shainberg, share their deep experience, market knowledge and industry relationships with their clients. Over the last 14 years, they have closed nearly \$750,000,000 and more than 10,500 units in multifamily sales.

Client's Agenda

We broadly expose our listings to the market and often proactively market to the outside brokerage community. Many of our competitors keep their inventory in house and don't expose it to the broader market. Some of them will tell you they "cooperate", but what they don't tell you is that they make cooperating brokers jump through hoops and divulge personal information about their Buyer before releasing information about the opportunity. This tactic helps our competitors keep more Seller-paid commissions in the pockets of the listing broker, but this is at the expense of the very Client they are supposed to be serving! At MSP Group, the Client's agenda is the ONLY Agenda!
